

Lambeth is facing £99 million in cuts by 2029

**REBUILD
OUR
SERVICES
LAMBETH**

Lambeth Council has announced "the worst financial crisis Lambeth has faced". The Labour Party won the election telling us "no return to austerity" but our services are getting worse not better.

The Council is facing £99 million in cuts. Government housing policy has driven soaring costs of temporary accommodation, this combined with long term underfunding leave councils at breaking point. The proposals include job losses, closing children's centres, cuts to Early Intervention and Prevention, youth and play services, cuts to adult day centres, and losing £1million from local libraries. (25% of the budget)

Now disability benefits are being slashed to promote 'growth'. Join us to demand Lambeth Council and the Labour Government improve local services:

- Rebuild public services
- Restore real wages and benefits
- Tax the rich!
